## **Title: RELATION & IMPORTANCE OF THEORY, TECHNOLOGY & BODY LANGUAGE IN YOUR CAREER**

**Duration:** 3-4 Hours

### **Course Description:**

This Course is designed to give an introduction on the importance and relationship of the studied subjects in their university and relate them with the technologies, which they will experience in their careers. The course relates the different aspects of studies and technologies with the body language of the individual. Our engineers are one of the best engineers in the world, but they lack the importance of team work and working in a team. So the course covers this important facet in the career.

The Course is entirely based on the real-world experiences of the instructor and knowledge been gathered from different multinational organizations around the globe. The course is built to make our engineers ready for the challenges, which they will face during the career and how they can handle them effectively. This course is designed for the large group of audience. Every feature and outline of the course is packed with discussions, cross questioning and sharing real world experiences with the audience to keep it interesting, beneficial and easy for grasping the concepts.

### **Course Objective and key benefits:**

- ✓ Importance of Studied Courses
- ✓ Importance of learning new Technologies
- ✓ Importance of right attitude
- ✓ Relation and Importance of learning and correct attitude in your career

- ✓ Students from 3<sup>rd</sup> Year of Graduation onwards

### **Who Should Attend?**

Students in their 3<sup>rd</sup> or final year of Graduation or Master's Degree majorly in Electrical/Electronics/Telecom/Computer Sciences, Business Administration and relevant

## **Course Outline:**

- I. Are we ready to start our promising career**
- II. How we can start our promising career**
- III. What is Educational Theory?**
  - a. Subjects, we have studied
  - b. Practical, we have done
  - c. Where we are theoretically
  - d. Where we are technically
  - e. Where we are with our body language
  - f. Real-World Examples
  
- IV. Discussion on subjects and relate with the technologies**
  - a. Wireless
  - b. Wireline
  
- V. Discussion on Subjects and relate with the Body Language**
  - a. What is Body Language
  - b. Body Language of a fresh graduate
  - c. What we have studied and implemented
  - d. Importance of a body language
  - e. Real-World Example-1
  - f. Real-World Example-2
  - g. Real-World Example-3
  
- VI. Enterprise Sector**
  - a. What is enterprise sector
  - b. What comes under enterprise
  - c. Is it the right sector for you
  - d. Basis of success in this sector

## **VII. Corporate Sector**

- a. What is corporate sector
- b. What comes under corporate
- c. Is it the right sector for you
- d. Foundation of success in this sector

## **VIII. Technologies which we know**

- a. List down the technologies
- b. Discussion on each major technology in relation with subjects and Body Language
- c. Examples of each major technology in relation with subjects and Body Language
- d. Importance of technology expert

## **IX. Technologies which we don't know**

- a. List down the technologies
- b. Importance of new technologies
- c. How to excel in them
- d. Body Language to help in outrivaling in new technologies

## **X. Individual Engineer**

- a. How are we as an individual
- b. How world sees us as an individual engineer
- c. Advantages and disadvantages of working as an individual
- d. What manager sees in you as an individual
- e. Real world examples

## **XI. Team Work**

- a. How are we as a team
- b. How world sees us as a team
- c. Advantages and disadvantages of working as a team
- d. How to be a team player

- e. How to shine as an individual in the team
- f. Real world examples
